#### Important Notice - The USA PATRIOT Act

To help the government fight the funding of terrorism and money laundering activities, Federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. In some cases, Federal law also requires us to verify and record information that identifies the natural persons who control and beneficially own a legal entity that opens an account.

What this means to you: When you open an account, we will ask for names, addresses, dates of birth, and other information that will allow us to identify you and certain other natural persons associated with the account. This information will be verified to ensure the identity of all such natural persons.

In some cases it may be necessary for you to provide documentary evidence, such as an image of your driver's license or passport, to satisfy the identity verification requirement.

#### Purpose

To open a non-retirement account.

## **Special Note**

Hartford Funds does not accept new accounts in share classes A or C that do not have a designated financial professional. Therefore, this application will be rejected if Section N is not completed in its entirety.

### Section E - Cost Basis Information

Internal Revenue Service (IRS) regulations require fund companies that produce 1099-B tax forms to include, among other things, cost basis reporting and holding period information for any new shares purchased on or after January 1, 2012.

### 1. Cost Basis Methods (review before completing Section E2)

Average Cost (ACST)	Each time you request to remove shares, this method will add the adjusted cost of the shares in the account and divide the total cost by the number of shares to calculate an average cost for each share. Adjustments to cost per share may be due to prior calculations or other transactions. This method averages the cost of uncovered shares separately from covered shares, and will remove all uncovered shares first.
First in, First Out (FIFO)	This method will remove shares based on the order purchased; shares purchased first will be removed first.
Last In, First Out (LIFO)	This method will remove shares based on the order purchased; shares purchased last will be removed first.
High Cost, First Out (HIFO)	This method will remove shares based on the cost per share; shares with the highest cost per share will be removed first.
Low Cost, First Out (LOFO)	This method will remove shares based on the cost per share; shares with the lowest cost per share will be removed first.
	This method will remove shares based on the calculated gain or loss per share in the following order:
Loss/Gain Utilization (LGUT)	<ol> <li>Short-term losses per share, in order of greatest loss per share to least</li> <li>Long-term losses per share, in order of greatest loss per share to least</li> <li>Long-term gains per share, in order of least gain per share to greatest</li> <li>Short-term gains per share, in order of least gain per share to greatest</li> </ol>

#### 2. Election Method Selection (complete one option below)

Hartford Funds will apply the default cost basis method of Average Cost (ACST) to all funds and accounts you or your agent do not list below.

Hartford Funds cannot offer tax advice. You should consult with a qualified tax advisor to determine the method that makes the most sense for you, or if you have tax questions regarding your account.

When choosing FIFO, LIFO, HIFO, LOFO, or LGUT for your cost basis method, you may override this election by identifying specific lots. Specific lot information must be given to Hartford Funds at the time of the applicable transaction, such as a redemption, exchange, or transfer.
