Client Portfolio Management Team:

The Client Portfolio Management Team helps to monitor and review advisor portfolio allocations by leveraging proprietary risk, asset-allocation, and portfolio-construction tools, as well as generating investment thought leadership.

Applied Insights Team:

The Applied Insights Team translates academic research and practice management expertise into actionable ideas. This dedicated Hartford Funds team is available for both virtual and live events.

For financial professionals seeking more information on our Systematic ETFs, please call our sales desk at 800-456-7526 and visit us at hartfordfunds.com.

Ticker	Systematic ETF	Total Operating Expense (%) ¹	Morningstar Category	Product Overview
HDUS	Hartford Disciplined US Equity ETF	0.19	Large Blend	US large-cap equity strategy designed to control tracking error; may generate a higher dividend yield than comparable indexes
ROUS	Hartford Multifactor US Equity ETF	0.19	Large Value	Diversified exposure to US large-cap equities designed to limit volatility and concentration risk with a quality value stock-selection process
ROSC	Hartford Multifactor Small Cap ETF	0.34	Small Value	Diversified exposure to US small-cap equities designed to limit volatility risk with a quality value stock-selection process
RODM	Hartford Multifactor Developed Markets (ex-US) ETF	0.29	Foreign Large Value	Diversified exposure to international developed large-cap equities designed to limit volatility and concentration risk with a quality value stock-selection process
RODE	Hartford Multifactor Diversified International ETF	0.29	Foreign Large Value	Diversified exposure to international developed and emerging market large-cap equities designed to limit volatility and concentration risk with a quality value stock-selection process
ROAM	Hartford Multifactor Emerging Markets ETF	0.44	Diversified Emerging Markets	Diversified exposure to emerging market equities designed to limit volatility and concentration risk with a quality value stock-selection process
ROIS	Hartford Multifactor International Small Company ETF	0.49	Foreign SMID Blend	Designed to provide efficient exposure to the developed (ex-US) and emerging small-cap equities
VMAX	Hartford US Value ETF	0.29	Large Value	Designed to maximize exposure to the lowest valuation companies in the US large-cap equity markets without sacrificing other factor exposures
HQGO	Hartford US Quality Growth ETF	0.34	Large Growth	Designed to provide efficient exposure to the US large-cap growth equity market with an emphasis on quality growth at reasonable valuations

Investors should carefully consider a fund's investment objectives, risks, charges and expenses. This and other important information is contained in the fund's prospectus and summary prospectus, which can be obtained by visiting hartfordfunds.com. Please read it carefully before investing.

¹ Expenses are the total annual fund operating expenses as shown in the most recent prospectus.

Investing involves risk, including the possible loss of principal. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. These risks may be greater, and include additional risks, for investments in emerging markets or if the Fund focuses in a particular geographic region or country. • Small cap securities can have greater risk and volatility than large-cap securities. • The Funds are not actively managed but rather attempt to track the performance of an index. The Funds' returns may diverge from that of the index. Ordinary brokerage commissions apply.

Diversification does not ensure a profit or protect against a loss.

Fund Objectives: HDUS seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index that tracks the performance of exchange traded U.S. large-cap equity securities. ROUS seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index that tracks the performance of exchange traded US equity securities. ROSC seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index that tracks the performance of small capitalization exchange traded equity securities. RODM seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index that tracks the performance of companies located in major developed markets of Europe, Canada and the Pacific Region. RODE seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index that tracks the performance of companies located in both developed and emerging markets. ROAM seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index based upon the emerging markets of the world. ROIS seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index that tracks the performance of small capitalization exchange traded equity securities located in both developed and emerging markets. VMAX seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index that tracks the performance of exchange traded US large-cap equity securities and is designed to consist of US equities with favorable value characteristics and relatively lower market valuations. HQGO seeks to provide investment results that, before fees and expenses, correspond to the total return performance of an index that tracks the performance of exchange traded US large cap equity securities and is designed to consist of US equities with favorable growth characteristics while maintaining what is considered to be enhanced exposure to quality while also providing reasonable exposure to value and momentum.
