

Simplify Your Investment Opportunities

The Hartford Checks and Balances Fund gives investors the opportunity to incorporate growth and income into their portfolios through one simple strategy by providing exposure to domestic and international stocks, as well as bonds.

The Checks and Balances Fund is designed to...

Wellington Management: Global Investment Expertise

Wellington Management acts as the sub-adviser of the underlying funds. Tracing their roots to the launch of the first US balanced mutual fund, Wellington is one of the world's largest investment managers. They have a significant presence and long-term track record in nearly all sectors of the global securities markets.

HARTFORDFUNDS

Our benchmark is the investor.®

At Hartford Funds, your investment satisfaction is our measure of success. That's why we use an approach we call human-centric investing that considers not only how the economy and stock market impact your investments, but also how societal influences, generational differences, and your stage of life shape you as an investor.

Instead of cookie-cutter recommendations and generic goals, we think you deserve personalized advice from a financial advisor who understands your financial situation and can build a financial plan tailored to your needs.

Delivering strong performance is always our top priority. But the numbers on the page are only half the story. The true test is whether or not an investment is performing to your expectations.

Important Risks: Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Since the Fund is not actively managed, it may underperform actively managed funds during certain markets. • The ability of the Fund to meet its investment objective is directly related to the ability of the underlying funds to meet their objectives as well as the investment manager's allocation among those underlying funds. The Fund is subject to the risks of the underlying funds in direct proportion to the amount of assets it invests in each underlying fund. The underlying funds are subject to the risks of the general equity market, small- and mid-cap securities, foreign and emerging-markets securities, fixed-income securities (which carry credit, liquidity, duration, and interest-rate risk), high-yield ("junk") bonds, mortgage related- and asset-backed securities, and derivatives.

Investors should carefully consider a fund's investment objectives, risks, charges and expenses. This and other important information is contained in the fund's prospectus and summary prospectus, which can be obtained by visiting hartfordfunds.com. Please read it carefully before investing.
