Share Class Inception: A, Y – 8/28/03; F – 2/28/17; I – 8/31/06. Performance shown prior to the inception of a class reflects performance and operating expenses of another class(es) (excluding sales charges, if applicable). Had fees and expenses of a class been reflected for the periods prior to the inception of that class, performance would be different. Since inception (SI) performance is from 8/28/03. Performance and expenses for other share classes will vary. Additional information is in the prospectus. Only Class A assesses a sales charge.

**Russell 1000 Value Index** is an unmanaged index measuring the performance of those Russell 1000 Index companies with lower price-to-book ratios and lower forecasted growth values. Indices are unmanaged and not available for direct investment.

**Value of a \$10,000 Investment (Class A)**

Holdings and characteristics are subject to change. Percentages may be rounded.

**Important Risks:** Investing involves risk, including the possible loss of principal. There is no guarantee a fund will achieve its stated objective. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • For dividend-paying stocks, dividends are not guaranteed and may decrease without notice. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political and economic developments. • Different investment styles may go in and out favor, which may cause a fund to underperform the broader stock market. • The Fund's focus on investments in particular sectors may increase its volatility and risk of loss if adverse developments occur.

**Asset Weighted Market Cap** is the value of a corporation as determined by the number of outstanding shares of common stock multiplied by the price per share. **Beta** measures the volatility of a portfolio relative to a benchmark. A beta of less than 1.00 indicates lower risk than the market; a beta of greater than 1.00 indicates higher risk than the market. **EPS Growth Rate** is the projected growth rate in earnings per share for the next five years. **Price/Book** is the ratio of a stock's price to its book value per share. **Price/Earnings** is the ratio of a stock's price to its earnings per share based on 12-month forward projections. **R Squared** represents the percentage of the portfolio's movement that can be explained by the market. **Return on Equity** is the average amount of net income returned as a percentage of shareholder's equity over the past five years. **Standard Deviation** measures a portfolio's total-return volatility over the last three years. A higher standard deviation indicates greater historical volatility.

\*Class A-Share Star Ratings: 3-year 4 stars out of 1099 products, 5-year 3 stars out of 951 products, and 10-year 4 stars out of 686 products for the period ended herein. Other share classes may have different ratings. The Morningstar Rating™ for funds, or "star rating", is calculated for funds and separate accounts with at least a 3-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. Star rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance (without adjusting for any sales load, if applicable), placing more emphasis on downward variations and rewarding consistent performance. 5 stars are assigned to the top 10%, 4 stars to the next 22.5%, 3 stars to the next 35%, 2 stars to the next 22.5%, and 1 star to the bottom 10%. Overall Morningstar Rating is derived from a weighted average of the performance figures associated with its 3-, 5-, and 10-year (if applicable) Morningstar Rating metrics. For more information about the Morningstar Fund Ratings, including their methodology, please go to [global.morningstar.com/managerdisclosures](http://global.morningstar.com/managerdisclosures). © 2018 Morningstar, Inc.
