Share Class Inception: A - 5/28/04; F - 2/28/17; I - 8/31/06. Performance shown prior to the inception of a class reflects performance and operating expenses of another class(es) (excluding sales charges, if applicable). Had fees and expenses of a class been reflected for the periods prior to the inception of that class, performance would be different. Since inception (SI) performance is from 5/28/04. Performance and expenses for other share classes will vary. Additional information is in the prospectus. Only Class A assesses a sales charge. Performance for periods of less than one year is not annualized.

Credit exposure is the credit ratings for the underlying securities of the Fund as provided by Standard and Poor's (S&P), Moody's Investors Service, or Fitch and typically range from AAA/Aaa (highest) to C/D (lowest). If S&P, Moody's, and Fitch assign different ratings, the median rating is used. If only two agencies assign ratings, the lower rating is used. Securities that are not rated by any of the three agencies are listed as "Not Rated." Ratings do not apply to the Fund itself or to Fund shares. Ratings may change.

Important Risks: Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • The Fund invests in underlying funds in a fund-of-funds structure. The ability of the Fund to meet its investment objective is directly related to the ability of the underlying funds to meet their objectives as well as the investment manager's allocation among those underlying funds. The Fund is subject to the risks of the underlying funds, in direct proportion to the amount of assets it invests in each underlying fund. The underlying funds are subject to the risks specific to their investment strategies, such as market, small- and mid-cap securities, foreign securities, emerging-market securities, fixed-income securities which includes bonds, municipal-related and asset-backed securities, securities purchased in the To-Be-Announced market and high-yield ("junk") bonds, and derivative risks, and to the extent the underlying fund is an ETF, risks associated with ETFs.
