2023	-14.57
2022	-28.86
2021	7.24

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. For more current performance information to the most recent month ended, please visit hartfordfunds.com.

Investors should carefully consider a fund's investment objectives, risks, charges and expenses. This and other important information is contained in a fund's full prospectus and summary prospectus, which can be obtained by visiting hartfordfunds.com. Please read it carefully before investing.

¹ Expenses as shown in the Fund's most recent prospectus. Gross expenses do not reflect contractual expense reimbursement arrangements. Net expenses reflect such arrangements in instances when they reduce gross expenses. These arrangements remain in effect until 2/29/24 unless the Fund's Board of Directors approves an earlier termination.

Mutual funds are distributed by Hartford Funds Distributors, LLC (HFD), Member FINRA. Advisory services are provided by Hartford Funds Management Company, LLC (HFMC). Certain funds are sub-advised by Schroder Investment Management North America Inc (SIMNA). Schroder Investment Management North America Ltd. (SIMNA Ltd) serves as a secondary sub-adviser to certain funds. HFMC, SIMNA, and SIMNA Ltd. are all SEC registered investment advisers. Hartford Funds refers to HFD and HFMC, which are not affiliated with any sub-adviser.

Holdings and characteristics are subject to change. Percentages may be rounded.

Important Risks: Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • The Fund invests in China A shares through Stock Connect, which is subject to a number of restrictions that may affect the Fund's investments and returns. To the extent the Fund invests in China A shares listed on the Science and Technology Innovation Board of the Shanghai stock exchange and/or the ChiNext market of the Shenzhen stock exchange, the risks are heightened. • Risks associated with investments in China include currency fluctuation, political, economic, social, environmental, regulatory and other risks, including risks associated with differing legal standards. Focusing investments in China subjects the Fund to more volatility and greater risk of loss than a fund with more geographically diverse investments. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. These risks may be greater, and include additional risks, for investments in emerging markets, such as China. • Small- and mid-cap securities can have greater risks and volatility than large-cap securities. • Derivatives are generally more volatile and sensitive to changes in market or economic conditions than other securities; their risks include currency, leverage, liquidity, index, pricing, regulatory and counterparty risk. These risks may be greater and include additional risks for foreign equity securities. • Because the Fund is non-diversified, it may invest in a smaller number of issuers, and may be more exposed to risks and volatility than a more broadly diversified fund. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur. • The Fund may have high portfolio turnover, which could increase its transaction costs and an investor's tax liability. • Integration of environmental, social, and/or governance (ESG) characteristics into the investment process may not work as intended.

Asset Weighted Market Cap is the value of a corporation as determined by the number of outstanding shares of common stock multiplied by the price per share. **Price/Book** is the ratio of a stock's price to its book value per share. **Price/Earnings** is the ratio of a stock's price to its earnings per share. **Return on Equity** is the average amount of net income returned as a percentage of shareholder's equity over the past five years.

*Class I-Shares Star Ratings: 3-year 4 stars out of 103 products for the period ended herein. Other share classes may have different ratings. The Morningstar Rating™ for funds, or "star rating", is calculated for funds and separate accounts with at least a 3-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. Star rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance (without adjusting for any sales load, if applicable), placing more emphasis on downward variations and rewarding consistent performance. 5 stars are assigned to the top 10%, 4 stars to the next 22.5%, 3 stars to the next 35%, 2 stars to the next 22.5%, and 1 star to the bottom 10%. Overall Morningstar Rating is derived from a weighted average of the performance figures associated with its 3-, 5-, and 10-year (if applicable) Morningstar Rating metrics. For more information about the Morningstar Fund Ratings, including their methodology, please go to global.morningstar.com/managerdisclosures. ©2024 Morningstar, Inc. All rights reserved.
