

## Because the most important factor is you

The Hartford Funds suite of multifactor ETFs is designed to help you navigate a potential lower-growth, higher-volatility market going forward.

### ETFs That Seek Outperformance

Our research-driven, rules-based strategies differ from traditional passive funds that are limited to investing based strictly on company size.

### Enhance Growth Potential

Using a comprehensive approach, we emphasize high-quality companies, trading at attractive prices, that are being recognized by the market.

### Improve Diversification

Our strategies seek to track indices designed to reduce concentrated exposures to individual countries, companies, and sectors.
