## Growth Beyond Borders

The Hartford International Opportunities Fund can help you take advantage of opportunities beyond the US.

### International Diversification

We live globally—buying televisions from Japan, phones from China, wine from Italy. Growth can be found outside the US borders, but many portfolios may not have kept pace.

### Seeking Companies That Can Stay One Step Ahead

The investment team looks to buy reasonably priced companies with *improving* returns, such as companies with new management or *sustainable* returns, such as companies that have enduring competitive advantages.

### Investment Expertise

Uncovering international opportunities takes talented resources. The investment team is supported by Wellington Management's global network of industry and research analysts.

<sup>1</sup> MSCI ACWI ex USA Index is a broad-based, unmanaged, market capitalization weighted, total return index that measures the performance of both developed and emerging stock markets, excluding the U.S. MSCI index performance is shown net of dividend withholding tax. Indices are unmanaged and not available for direct investment.

<sup>2</sup> Expenses as shown in the Fund's most recent prospectus.

**Important Risks:** Investing involves risk, including the possible loss of principal. Security prices fluctuate in value depending on general market and economic conditions and the prospects of individual companies. • Foreign investments may be more volatile and less liquid than U.S. investments and are subject to the risk of currency fluctuations and adverse political, economic and regulatory developments. These risks may be greater, and include additional risks, for investments in emerging markets or if the Fund focuses in a particular geographic region or country. • Mid-cap securities can have greater risks and volatility than large-cap securities. • The Fund may have high portfolio turnover, which could increase its transaction costs and an investor's tax liability. • To the extent the Fund focuses on one or more sectors, the Fund may be subject to increased volatility and risk of loss if adverse developments occur. • Integration of environmental, social, and/or governance (ESG) characteristics into the investment process may not work as intended.

Investors should carefully consider a fund's investment objectives, risks, charges and expenses. This and other important information is contained in the fund's prospectus and summary prospectus, which can be obtained by visiting [hartfordfunds.com](http://hartfordfunds.com). Please read it carefully before investing.
