Growth Beyond Borders

By favoring US investments, you could miss out on two of the main benefits of international equity exposure: diversification and growth potential. Consider Hartford International Opportunities Fund to help you break out of your comfort zone.

International Diversification

We live globally—buying televisions from Japan, phones from China, wine from Italy. Growth can be found outside the US borders, but our portfolios may not have kept pace. The Hartford International Opportunities Fund can help you diversify beyond the US and take advantage of opportunities anywhere in the international equity universe.

Seeking Companies That Can Stay One Step Ahead

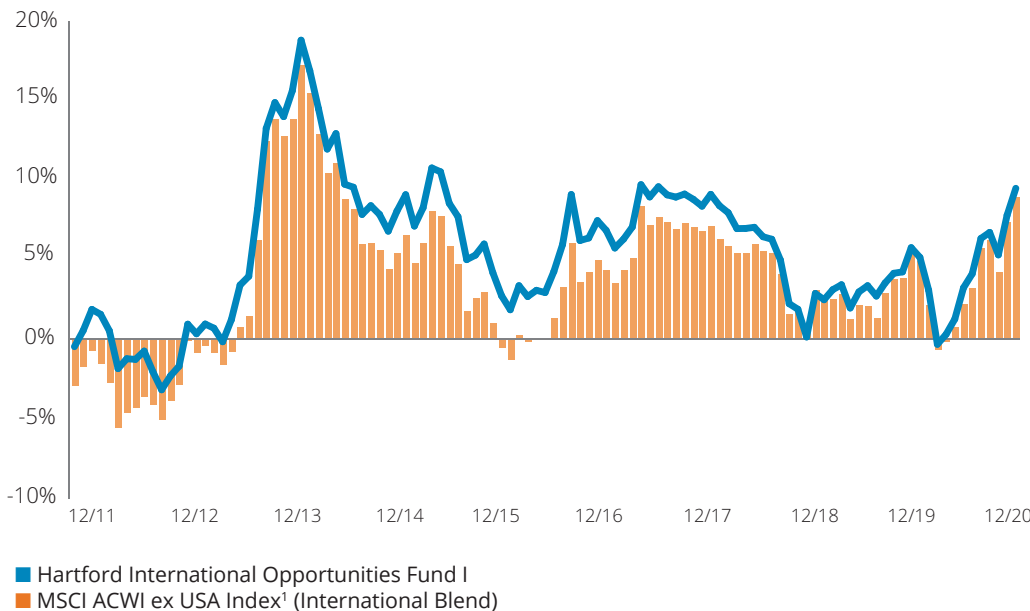

The portfolio managers look to buy reasonably priced shares of companies based on expectations of both *improving* returns, such as companies with new management teams, and *sustainable* returns, such as companies that have enduring competitive advantages.

Historically Consistent, Strong Core Holding
