Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, reports to shareholders, and other information about the Fund online at <http://www.hartfordfunds.com/prospectuses.html>. You can also get this information at no cost by calling 1-888-843-7824 or request a copy of the prospectus by sending an e-mail to [orders@mysummaryprospectus.com](mailto:orders@mysummaryprospectus.com). The Fund's prospectus and statement of additional information dated February 28, 2025, each as may be amended, supplemented or restated, are incorporated by reference into this summary prospectus. The Fund's statement of additional information may be obtained, free of charge, in the same manner as the Fund's prospectus.

**INVESTMENT OBJECTIVE.** The Fund seeks long-term growth of capital.

**YOUR EXPENSES.** The table below describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.** Please contact your financial intermediary for more information regarding whether you may be required to pay a brokerage commission or other fees. You may qualify for sales charge discounts for Class A shares if you and your family invest, or agree to invest in the future, at least \$50,000 in certain classes of Hartford mutual funds or in The Hartford® SMART529® College Savings Plan. More information about these and other discounts is available from your financial professional and in the "How Sales Charges Are Calculated" section beginning on page 131 of the Fund's statutory prospectus. Descriptions of any financial intermediary specific sales charge waivers and discounts are set forth in Appendix A to the statutory prospectus.

**Shareholder Fees** (fees paid directly from your investment):

Share Classes	A	C	I	R3	R4	R5	R6	Y	F
Maximum sales charge (load) imposed on purchases (as a percentage of offering price)	5.50%	None	None	None	None	None	None	None	None
Maximum deferred sales charge (load) (as a percentage of purchase price or redemption proceeds, whichever is less)	None <sup>(1)</sup>	1.00%	None	None	None	None	None	None	None

**Annual Fund Operating Expenses** (expenses that you pay each year as a percentage of the value of your investment):

Share Classes	A	C	I	R3	R4	R5	R6	Y	F
Management fees	0.65%	0.65%	0.65%	0.65%	0.65%	0.65%	0.65%	0.65%	0.65%
Distribution and service (12b-1) fees	0.25%	1.00%	None	0.50%	0.25%	None	None	None	None
Other expenses	0.19%	0.22%	0.12%	0.26%	0.20%	0.14%	0.04%	0.14%	0.04%
Total annual fund operating expenses	1.09%	1.87%	0.77%	1.41%	1.10%	0.79%	0.69%	0.79%	0.69%

(1) Investments of \$1 million or more will not be subject to a front-end sales charge, but may be subject to a 1.00% contingent deferred sales charge.

**Example.** The example below is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then, except as shown below, redeem all of your shares at the end of those periods. The example also assumes that:

- Your investment has a 5% return each year
- The Fund's operating expenses remain the same
- You reinvest all dividends and distributions.

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Share Classes	Year 1	Year 3	Year 5	Year 10
A	\$655	\$878	\$1,118	\$1,806
C	\$290	\$588	\$1,011	\$2,190
I	\$ 79	\$246	\$ 428	\$ 954
R3	\$144	\$446	\$ 771	\$1,691
R4	\$112	\$350	\$ 606	\$1,340
R5	\$ 81	\$252	\$ 439	\$ 978
R6	\$ 70	\$221	\$ 384	\$ 859
Y	\$ 81	\$252	\$ 439	\$ 978
F	\$ 70	\$221	\$ 384	\$ 859
If you did not redeem your shares:				
C	\$190	\$588	\$1,011	\$2,190

**Portfolio Turnover.** The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the fiscal year ended October 31, 2024, the Fund’s portfolio turnover rate was 43% of the average value of its portfolio.

**PRINCIPAL INVESTMENT STRATEGY.** The Fund normally invests at least 65% of its net assets in equity securities, including non-dollar securities, of foreign issuers. The Fund diversifies its investments among a number of different countries throughout the world, with no limit on the amount of assets that may be invested in each country. The securities in which the Fund invests are denominated in both U.S. dollars and foreign currencies and generally are traded in foreign markets. The Fund may invest in companies domiciled in emerging markets as a percentage of its net assets up to the greater of: (a) 25% or (b) the weight of emerging markets in the MSCI ACWI ex USA Index plus 10%. The Fund may invest in opportunities across the market capitalization spectrum, but under normal circumstances invests primarily in mid and large capitalization companies.

The sub-adviser, Wellington Management Company LLP (“Wellington Management”), seeks to invest in companies with improving or sustainable return on capital. Wellington Management focuses on companies with underappreciated assets and/or companies that it believes are mispriced by the market due to short-term issues. Wellington Management conducts fundamental research on individual companies to identify securities for purchase or sale. As part of its fundamental analysis, Wellington Management may evaluate, for example, a company’s business environment, management quality, balance sheet, income statement, anticipated earnings, revenues and dividends, and other related measures or indicators of value. Portfolio construction is driven primarily by bottom-up stock selection, with region, country and sector weightings being secondary factors. Based on market or economic conditions, the Fund may, through its normal bottom-up stock selection process, focus in one or more sectors of the market.

**PRINCIPAL RISKS.** The principal risks of investing in the Fund are described below. When you sell your shares they may be worth more or less than what you paid for them, which means that you could lose money as a result of your investment. **An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.** As with any fund, there is no guarantee that the Fund will achieve its investment objective.

**Market Risk** – Market risk is the risk that one or more markets in which the Fund invests will go down in value, including the possibility that the markets will go down sharply and unpredictably. Securities of a company may decline in value due to its financial prospects and activities, including certain operational impacts, such as data breaches and cybersecurity attacks. Securities may also decline in value due to general market and economic movements and trends, including adverse changes to credit markets, or as a result of other events such as geopolitical events, natural disasters, or widespread pandemics (such as COVID-19) or other adverse public health developments.

**Foreign Investments Risk** – Investments in foreign securities may be riskier, more volatile, and less liquid than investments in U.S. securities. Differences between the U.S. and foreign regulatory regimes and securities markets, including the less stringent investor protection, less stringent accounting, corporate governance, financial reporting and disclosure standards of some foreign markets, as well as political and economic developments in foreign countries and regions and the U.S. (including the imposition of sanctions, tariffs, or other governmental restrictions), may affect the value of the Fund’s investments in foreign securities. Changes in currency exchange rates may also adversely affect the Fund’s foreign investments.

**Emerging Markets Risk** – The risks related to investing in foreign securities are generally greater with respect to investments in companies that conduct their principal business activities in emerging markets or whose securities are traded principally on exchanges in emerging markets. The risks of investing in emerging markets include risks of illiquidity, increased price volatility, smaller market capitalizations, less government regulation and oversight, less extensive and less frequent accounting, financial, auditing and other reporting requirements, significant delays in settlement of trades, risk of loss resulting from problems in share registration and custody and substantial economic and political disruptions. In addition, the imposition of exchange controls (including repatriation restrictions), sanctions, confiscations, trade restrictions (including tariffs) and other government restrictions by the United States and other governments may also result in losses. Frontier markets are those emerging markets that are considered to be among the smallest, least mature and least liquid, and as a result, the risks of investing in emerging markets are magnified in frontier markets.

**Currency Risk** – The risk that the value of the Fund’s investments in foreign securities or currencies will be affected by the value of the applicable currency relative to the U.S. dollar. When the Fund sells a foreign currency or foreign currency denominated security, its value may be worth less in U.S. dollars even if the investment increases in value in its local market. U.S. dollar-denominated securities of foreign issuers may also be affected by currency risk, as the revenue earned by issuers of these securities may also be affected by changes in the issuer’s local currency.

**Equity Risk** – The risk that the price of equity or equity related securities may decline due to changes in a company’s financial condition and overall market and economic conditions.

**Mid-Cap Securities Risk** – The securities of mid-capitalization companies generally trade in lower volumes and are generally subject to greater and less predictable price changes than the securities of larger capitalization companies.

**Large Cap Securities Risk** – The securities of large market capitalization companies may underperform other segments of the market because such companies may be less responsive to competitive challenges and opportunities and may be unable to attain high growth rates during periods of economic expansion.

**Active Investment Management Risk** – The risk that, if the sub-adviser’s investment strategy does not perform as expected, the Fund could underperform its peers or lose money. Although the sub-adviser considers several factors when making investment decisions, the sub-adviser may not evaluate every factor prior to investing in a company or issuer, and the sub-adviser may determine that certain factors are more significant than others.

**Sector Risk** – To the extent the Fund invests more heavily in a particular sector or sectors, its performance will be especially sensitive to developments that significantly affect those sectors. Individual sectors may be more volatile, and may perform differently, from the broader market.

**Regional/Country Focus Risk** – To the extent that the Fund focuses its investments in a particular geographic region or country, the Fund may be subject to increased currency, political, regulatory, economic and other risks associated with that region or country. A natural or other disaster could occur in a geographic region in which the Fund invests, which could affect the economy or particular business operations of companies in the specific geographic region. As a result, the Fund may be subject to greater price volatility and risk of loss than a fund holding more geographically diverse investments.

**Large Shareholder Transaction Risk** – The Fund may experience adverse effects when certain large shareholders redeem or purchase large amounts of shares of the Fund. Such redemptions may cause the Fund to sell securities at times when it would not otherwise do so or borrow money (at a cost to the Fund), which may negatively impact the Fund’s performance and liquidity. Similarly, large purchases may adversely affect the Fund’s performance to the extent that the Fund is delayed in investing new cash and is required to maintain a larger cash position than it ordinarily would. These transactions may also accelerate the realization of taxable income to shareholders if such sales of investments resulted in gains, and may also increase transaction costs.

The Fund is subject to certain other risks. For more information regarding risks and investments, please see “Additional Information Regarding Investment Strategies and Risks” and “More Information About Risks” in the Fund’s statutory prospectus.

**PAST PERFORMANCE.** The performance information indicates the risks of investing in the Fund. Keep in mind that past performance (before and after taxes) does not indicate future results. Updated performance information is available at hartfordfunds.com. The returns for the Fund in the bar chart and table:

- Assume reinvestment of all dividends and distributions
- Reflect fee waivers and/or expense limitation arrangements, if any. Absent any applicable fee waivers and/or expense limitation arrangements, performance would have been lower.

The bar chart:

- Shows how the Fund's total return has varied from year to year
- Returns do not include sales charges. If sales charges were reflected, returns would have been lower
- Shows the returns of Class A shares. Returns for the Fund's other classes differ only to the extent that the classes do not have the same expenses.

**Total returns by calendar year (excludes sales charges)**

During the periods shown in the chart above:	Returns	Quarter Ended
<b>Best Quarter Return</b>	20.80%	June 30, 2020
<b>Worst Quarter Return</b>	-22.01%	March 31, 2020

**Average Annual Total Returns.** The table below shows returns for the Fund over time compared to those of a broad-based market index, which is the Fund's performance index and regulatory index. After-tax returns, which are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes, are shown only for Class A shares and will vary for other classes. Actual after-tax returns, which depend on an investor's particular tax situation, may differ from those shown and are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

**Average annual total returns for periods ending December 31, 2024 (including sales charges)**

You may sell your shares of the Fund on those days when the New York Stock Exchange is open, typically Monday through Friday. You may sell your shares through your financial intermediary. With respect to certain accounts, you may sell your shares on the web at hartfordfunds.com, by phone by calling 1-888-843-7824, by electronic funds transfer, or by wire. In certain circumstances you will need to write to Hartford Funds to request to sell your shares. For regular mail, please send the request to Hartford Funds, P.O. Box 219060, Kansas City, MO 64121-9060. For overnight mail, please send the request to Hartford Funds, 801 Pennsylvania Ave, Suite 219060, Kansas City, MO 64105-1307.

**TAX INFORMATION.** The Fund's distributions are generally taxable, and may be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. Such tax-deferred arrangements may be taxed later upon withdrawal of monies from those arrangements.

**PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES.** If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank or financial professional), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your financial professional to recommend the Fund over another investment. Ask your financial professional or visit your financial intermediary's website for more information.
