Military Conflicts May Rattle Markets, But Not for Long

Staying invested despite geopolitical events can pay off in the long run.

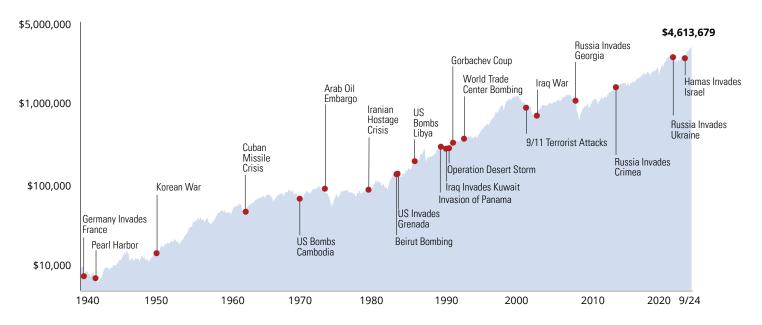

Geopolitical uncertainty can cause short-term market volatility, but the stock market has been resilient. In fact, stocks generated positive performance one year after an act of aggression for 73% of the armed conflicts since World War II. The longer the investment time frame, the more likely a positive return.

| Geopolitical/Military Events | S&P 500 Index Price Return (%) | | | | |
|---|--------------------------------|--------------|---------------|---------------|----------------|
| Event (Start Date) | 3 Months Later | Annualized | | | |
| | | 1 Year Later | 3 Years Later | 5 Years Later | 10 Years Later |
| Germany Invades France (May 1940) | -15.3 | -22.0 | -0.9 | 4.1 | 4.2 |
| Pearl Harbor (December 1941) | -12.4 | 0.4 | 11.7 | 9.5 | 9.6 |
